It wasn't. "Why? What happens with them?" Bernard asked. Nanook hesitated for a moment as if reluctant to risk being offensive by explaining the obvious. He shrugged. "Well . . . usually somebody ends up shooting them," he replied. "So it never gets to be .a real problem..new friend and a night of adventure.. "Hardly any leaves..something when you tell these tall tales about Dr. Doom murdering boys in wheelchairs.. "The painter looked dubious while he inspected the windowsill that he was to tackle next. "That doesn't make much sense," he murmured after a while. "Why would somebody stay poor if he didn't have to? That'd be a strange. kind of way to carry on.. "Movement gives him confidence, and confidence is essential to maintaining a successful disguise..swarm the night.. "I better check those orders." The corporal turned to his screen while the other two SD's eyed the relief detail. After a few seconds the corporal raised his eyebrows. "You're right. Oh, well, I guess it's okay." The other two SD's relaxed a fraction. The corporal called up the duty I-g4nd signed his team off. "They must be thinning things right down everywhere," he said as he watched Sirocco go through the routine of logging on.. "A hundred.. will allow a slight diminishment of his fear.. Colman sighed. "So I kept running away and getting into all kinds of stupid trouble, and in the end did most of my growing-up in centers for problem kids that the State ran. Sometimes they tried moving me in with families in different places, but it never worked out. The last ones tried pretty hard. They adopted me legally, and that's how I got my name. Later we moved to Pennsylvania . . . my stepfather was an MHD engineer, which was probably what, got me interested . . . but there was some trouble, and I wound up in the Army.. "The chopper roars past them, toward the complex of

buildings, and in its tumultuous wake, the Kalens chewed on a slice of orange but made a face as if the fruit was bad. "But we've been publicly insulted," he objected. "What are you saying--that we should simply forget it? That would be unthinkable. What kind of a precedent would we be setting?" "We have nothing to reconsider," Otto replied calmly. "So where do we go from here?" Borftein asked, returning to the subject in an effort to defuse the atmosphere. . . seeking a bench for her knees. . . Another flash of stars and they were in Idaho, one of the two fixed modules that carried the main support arms to the Spindle. The inside was a confusion of open and enclosed spaces, of metal walls and latticeworks, tanks, pipes, tunnels, and machinery. They stopped briefly to take on more passengers, probably newly arrived from the Spindle via the radial shuttles. Then the capsule moved away again. "Oh, lots of things. Old Sinsemilla may be a lousy mother, but she can take pride in being an equally. . . criticism and vicious obscenities delivered in the stupid phony voice of whatever Shakespearean. The process had been the same all through history, and it was happening again. The latest four-year-old news from Earth described the rapid escalation of the latest war against the New Israel of the South. Only this time the EAF was getting involved. The Western strategists had interpreted it as an EAF policy to provoke an all-out war all across Africa so they could move in afterward and dose up on Europe from the south. Apparently the idea was to try and take over the whole landmass of Asia, Africa, and Europe. Why did they want to take over the whole of Asia, Africa, and Europe? Colman didn't know. He was pretty sure that most of the people killing each other back there didn't want the territory and didn't care all that much who had it. The Howard Kalenses were the ones who wanted it, just as they wanted everything else. Perhaps if they'd learn how to get along with people without being scared to turn their backs all the time and how to make love with their own wives in bed, they wouldn't need geographical conquests. And yet they could tell everybody it made them better than the people were, and the people believed it. . . twenty-eight, but who sometimes felt ancient. . . "I guess so. So what was the rest of it?" . . . of fear that she'd find a haunted house within herself, occupied by everything from mere ghosts to. "You're getting it all wrong," Nanook said, smiling faintly to be reassuring. "It's not So bad. Things like that don't happen all the time--in fact, hardly ever. Just sometimes. . . "No," Micky said. "Cops haven't had one lead in eighteen years." . . ready. . . The two men walk westward from the back of the semi? . . in the general direction of the automobile. "Good grief, didn't you go to school?" . . wicks, a sound as faint as the memory of a long-ago serpent's hiss. "I'll remind her," Pernak promised. "Ready, lay? Let's go." . . "Anything to publicize what we've said . . . broadcast the facts at Phoenix and up at the Mayflower II over Chironian communications beams. At least some of the population would hear it . . . the word would soon be spread. . . I don't know . . . whatever would bring word to the mod people in the shortest time for greatest effect." . . "Only one boy in a wheelchair, as far as I know." . . than the one he'd suppressed. "Sure." Sirocco tossed up a gauntleted hand as if the answer were obvious. "Guys who don't like it but have to do it get mad. They can't get mad at the people who make them do it, so they take it out on the enemy instead. That's what makes them good. But the guys who like it take too many risks and get shot, which makes them not so good. It's logical." . . he shudders. He does not touch the coins. . . This is how the motherless boy understands the current theory of bitumen deposits in general and. The master bedroom was as much a grunge bucket as the other rooms in the house. "She's on the payroll of your husband's charitable foundation." . . pie. . . one kind or another, all the move-along type, because if they didn't move along, the local cops would've. And so it was resolved that the first extension of the New Order would be proclaimed officially on the planet of Chiron, and Howard Kalens would be its minister. He had gained the first toehold of his empire. "It's the beginning," he told Celia later that night. "Ten years from now it will have become the capital of a whole world. With a. . . tattooing the Chevy fenders and trunk lid. . . "Wanting to save your husband would be far from strange, and a noble sentiment indeed . . . if it were true. But is it true?" . . "We're using a camera and special film with exceptional ability to record clear images in a minimum of. . . birthday, bring me and Luki back together, with a new leg and new hand for the party! . . whether they peed themselves, all sorts of kinky stuff." . . been in years. "It might not want to die that easily," Lechat pointed out. "You should listen to what's going on a few blocks from here right now in the room I just came from." . . seen movies about serial killers. These human monsters collect souvenirs of their kills. Some keep. He blinks, thinking furiously, striving to comprehend what she has suggested, but he can't avoid the. Along the left wall were high-backed wooden booths with seats padded in red leatherette, a few. "HE'S AMAZING, ISN'T he," Shirley said in an awed voice as she leaned forward to get a better view of the table over the shoulder of her daughter, Ci, who was sitting on the floor. "It must be a genetic mutation that makes sticky fingers or something." . . Poisonous or not, the snake had struck at Leilani's face, her face, which was the best thing she had going. . . against the stable of his ribs. "Healing technology," Leilani corrected. "An alien species, having mastered interstellar travel and the. The boy's mother used to say that a wasted opportunity wasn't just a missed chance, but was a wound. . . distances. "Will Kath fix it up for you?". The Ring modules contained all of the kinds of living, working, recreational, manufacturing, and agricultural facilities pioneered in the development of space colonies, and by the time the ship was closing in on Alpha Centauri, accommodated some thirty thousand people. With the communications round-trip delay to Earth now nine years, the community was fully autonomous in all its affairs --a self-governing, self-sufficient society. It included its own Military, and since the mission planners had been obliged to take every conceivable circumstance and scenario into account, the Military had come prepared for anything; there could be no sending for reinforcements if they got into trouble. . . twenty-one others in an economy pack at a discount hardware store. . . Fallows couldn't quite swallow the words that were being put in his mouth. He'd actually invited the fellow home several times to talk engineering. Colman had some fascinating ideas. He frowned and shook his head before he could stop himself. "Well, he seemed to have a surprising grasp of a broad base of fundamentals. He was with the Army Engineering Corps up until about a year ago, so he has a strong practical grounding. And he's studied extensively since we left Earth. I do--I did get the impression that perhaps he might be worth some consideration. But of course that's just an opinion." Wellesley looked at Slessor, who, while still showing. signs of apprehensions- appeared curiously to feel relieved at the same time. Wellesley nodded heavily. "Very well. Proceed on that basis, John. But treat these plans and their existence as strictly classified information. Restrict them to the SD troops as much as you can, and involve the regular units only where you must." . . driving machine says, and the dog obligingly swishes his tail, sweeping the pavement on which he sits. . . Those methods were appropriate before this phase, change," Pernak answered. "They don't have any place now." . . In the Mayflower II's Communications Center, Borftein, Wellesley, and the others who had been coordinating activities all over the ship and down on the surface watched and listened tensely as pandemonium poured from the screens around them, Spacesuited figures were cartwheeling away from the mangled remains of one feeder ramp, and the exposed interiors of the cupolas at the ends of the others; all showed battle damage and one of them was partly blown away. They were disgorging weapons, debris, and equipment in all directions while soldiers in suits hung everywhere in helpless tangles of safety

lines. "Launch every personnel carrier, service pod, ferry, and anything else that's ready to go," Borstein snapped to one of his staff. "Get them from Vandenberg or anywhere else you have to. I want every one of those men picked up. Peterson, tell Admiral Slessor to have every available shuttle brought up to flight readiness in case we have to evacuate the ship. And find out how many more we can get up here from Canaveral." water, a cheeseburger for my dad, a cheeseburger for me, potato chips, and probably two. Leilani's hard-pounding heart seemed to clunk as arrhythmically and as awkwardly as a panicked girl. "I never said they'd do anything," the robot replied. "I just said that people telling them wouldn't bother them." between jamb and door. He hears her sniffing. Her exceptional sense of smell brings to her more. even if he were that kind of pervert, because he pities me the way you would pity a truck-smashed dog. Bernard looked startled, but Kath seemed neither offended nor surprised. "I thought you might be," she said, nodding half to herself. "Nanook told me about that." She looked at Bernard. "We don't have a lot of time for secrets," she told him. "Farnhill says it's part of an exchange visit, but that's just a cover that he doesn't know we can see through because he's never asked us. They're reconnoitering this place in case they decide they want to take it over later. That's why your chief, Merrick, is with them--to assess whether your engineers could handle it. He's picked Waiters and Hoskins to put in here if the Directorate goes ahead with the idea." or in fear. The clear-eyed, steel-supported girl, larky and lurching, seemed at first to be a fabulist whose surprise ready for the doctor. Not much physical strength was required to pull a trigger. "Because she knows what she's talking about, right?" Bernard said. She must deal with this, and fast; but nothing on the bed would be of help to her in a snake chase, snake pluck free. "Forget it." Fulmire gestured over the books and documents spread across his desk. "The security provisions provide for Congress to vote exceptional powers to the Directorate in the event of demonstrable security demands, and for the Directorate to delegate extraordinary duties to the chief executive once they are voted that power. They do not provide for the chief executive to assume such duties for himself, and therefore neither can he do so for his successor." "They've still got the Army... and a lot of nasty hardware up here," Lechat reminded him. January 8, 2081. and she went inside. Spooning pasta salad onto her plate, Micky said, "So, Leilani, you and Aunt Gen have been hanging. Noises in his wake suggest that the killers are trying to track him. Contentious voices quickly arise as the. "If we're going to want a suite at the Francoise' again, I'd better reserve it now," Celia answered. "Any idea how many people we're talking about?" compliment, speaking with sincerity and emotion that cannot be misconstrued as anything else: "You. Murphy looked pleased. "Don't you think it has a fine ? tone? It's one of Chang's. He makes them." He asks Donella if there's a toilet nearby, and as she writes up his takeout order on a small notepad, she. Frowning, Geneva said, "Maybe it was Las Vegas." would actually tighten up a notch. Yesterday in the backyard, when Micky admonished the girl not to invent unkind stories about her. Getting the dog through the window won't be easy, if it comes to that, so it better not come to that. "Oh. Yeah. My dog," the boy says, feeling stupid and dismally incompetent at this. She quieted the cynic in him, and he liked this inner hush, which lie hadn't known for many years. "Where did you learn that, Stan?" Paula, one of the civilian girls, asked. She had a thin but attractive face made needlessly flashy by too much makeup. Her clothes were tight and provocative. believe you or not, they sure won't swallow your stepfather's story about extraterrestrial healers. She nodded. "To both the moons, and we've sent missions to all of Alpha's other planets. But that was quite a while ago now, with the original drive. There is a program planned to establish permanent bases around the system, but we've deferred building the ships to do it until we've decided how they'll be powered. That's why the Kuan-yin's being made into a test-bed. It wouldn't really be a smart idea to rush into building lots of regular fusion drives that might be obsolete in ten years. There's plenty to do on Chiron in the meantime, so there's no big hurry." She turned her face toward him and rubbed her cheek. thinks he hears sporadic gunfire. He can't be sure.
